DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5-22 and 24-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Peter '191. Peter discloses a planting assembly (as seen in figures 1-4) comprising a frame (generally 20), a furrow opening mechanism 32, a seed tube 36 for directing seed into a furrow, a liquid source 44, a liquid delivery conduit 40 having a delivery end (area of reference numeral 48) and a furrow closing mechanism 54. Also, Peter discloses the assembly having an adapter/bracket (area of reference numeral 29) configured to be mounted to the seed tube (as seen in figure 1) and a spray arm/seed positioning device 22 mounted to the adapter, the adapter existing above the furrow (as seen in figure 1) and having the liquid delivery conduit attached to a distal end thereof and whereby the trailing end of the arm acts as a deflector for the sprayed liquid.

Allowable Subject Matter

Claims 4, 23, 30 and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
